2007- 2011

### PROFILE

I am a front-end web developer with a passion for building accessible, responsive and engaging websites with HTML, CSS, JavaScript and React. My previous work experience as a Senior Financial Analyst have contributed to a heightened level of attention to detail, an ability to work under tight deadlines and to contribute in a team environment.

### PROJECTS

**Bar One (PSD conversion)**

[\[LIVE\]](#) [\[REPO\]](#)

SCSS, HTML

Converted a photoshop design, bringing the designer's vision to life with a fully-functional, accessible, responsive website using HTML and CSS.

**Taskify**

[\[LIVE\]](#) [\[REPO\]](#)

HTML, CSS, REACT

Using React, I created an interactive one-page application that allows the user to add, modify, remove or defer tasks. Data was stored and manipulated in Firebase.

**Digital Cinephile**

[\[LIVE\]](#) [\[REPO\]](#)

SCSS, HTML, JAVASCRIPT

Leveraged MovieDB API to create an app that generates movie and TV recommendations while incorporating JavaScript and error handling. This project was pair programmed with Corey Hamat.

### EXPERIENCE

**Senior Financial Analyst**

Kellogg Canada Inc.

Jan 2018 - Aug 2021

- Partnered with the Supply Chain and Operations team to provide financial analysis and support on Canada-led cost savings and margin improvement projects.
- Led the 2020 tradespend by product budget, training and onboarding the new Sales Finance team members.
- Instrumental in building and rolling out the 2020 customer targets, which provided improved account level visibility to the commercial building blocks.
