I'm an intermediate front-end developer skilled in HTML, CSS, JavaScript, and React. I have experience working under tight deadlines, collaborating with teams, and paying close attention to detail. My focus is on creating visually appealing, user-friendly, and accessible websites using best front-end practices.

Experience

Web Developer II *Q4 Inc.* 🏢   *Apr 2023 - Oct 2023*

- Developed exceptional, fully responsive investor relation websites for high-profile clients using HTML, CSS, and JavaScript, consistently meeting and exceeding client expectations.
- Collaborated with cross-functional teams to deliver custom layouts and functionality, while seamlessly integrating HTML layouts into the content management system (CMS) to streamline content updates and maintenance for clients.
- Maintained a flexible and adaptive approach to project requirements, accommodating changes and feedback throughout the development cycle.
- Actively contributed to knowledge-sharing sessions within the team, fostering a culture of continuous improvement and learning.

Web Developer I *Q4 Inc.* 🏢   *Jan 2022 - Apr 2023*

- Built websites using HTML5, CSS3, Sass, and jQuery by taking a proactive role in making websites more inclusive by implementing accessibility features and adhering to WCAG.

Personal Projects

Taskify   **React, Firebase** [LIVE] [REPO]
- Interactive one-page application that allows the user to add, modify, remove or defer tasks.

Digital Cinephile   **Javascript, Sass, API** [LIVE] [REPO]
- Leveraged MovieDB API to create an app that generates movie and TV recommendations while incorporating JavaScript and error handling.

AI Trivia   **Nextjs, Typescript, API, AI** [LIVE] [REPO]
- Leveraging OpenAI API, a user can generate a trivia game on any topic with varying difficulty.
